The Newest Addition To 4th

The Public Art Society commissioned an artist by the name of Bill Johnston to create "Shimmering Aspens". The Aspens made their home on 4th Street in December. They are located between 13th and 14th Avenue.

Aspens are emblematic of our Alberta landscape and Bill has expressed the elements of these majestic and colorful trees in a contemporary context. Elements of movement and color reflect the natural qualities of Aspens and the kinetic design of his sculpture allows it to move gently in the wind. The leaves, created from lightweight polyethylene, are brightly colored to express the changing seasons and the translucent quality of the material captures sunlight. This sculpture invites a connection to nature by providing elements of these majestic and colorful trees in an urban setting.

About the Artist

Bill is a practicing architect and acquired his Masters in Fine Art from Princeton University and his degree in Architecture from the University of Manitoba. His career as an architect has enabled him to integrate the spiritual, intellectual and technical aspects of the creative challenges encountered in his professional life.

Bill applies his creative talents in many artistic endeavors such as woodcarving, forged metal and coppersmithing.

Thanks Bill for sharing your talents with us !

THE CITY OF
CALGARY

The City of Calgary's Assessment Business Unit invites you to a special presentation given by City Assessor, Ian McClung.

Please join us for:

Assessment in The City 2006

Wed. February 22, 2006

5:00 p.m. to 7:00 p.m.

Glen Room

Telus Convention Centre

120 - 9th Ave SE

Mr. McClung will provide an overview of the 2006 assessment, what the implications are for businesses and non-residential property owners, how they can access information or file a complaint, and what's next as The City gets ready for 2007. It is also a chance to ask the City Assessor questions.

RSVP to Karen Garden, 268-5650, no later than February 20, 2006. The evening will include refreshments.
